Negle Valves

High Pressure

30SC, 43SC, 30VM, 40VM, 60VM, 100VM & 150V Series

Pressures to 150,000 psi (10342 bar)

Since 1945, Parker Autoclave Engineers has designed and built premium quality valves, fittings and tubing. This commitment to engineering and manufacturing excellence has earned Parker Autoclave a reputation for reliable and efficient product performance. Parker Autoclave Engineers has long been established as the worldwide leader in high pressure fluid handling components for the chemical/petrochemical, research, oil and gas, waterjet, and waterblast industries.

Needle Valves - High Pressure

High Pressure Valve Features

- Tubing sizes from 1/4" to 1".
- Non-rotating stem prevents stem/seat galling.
- Rising stem/barstock body design.
- Metal-to-metal seating achieves bubble-tight shut-off, longer stem/seat life in abrasive flow, greater durability for repeated on/off cycles and excellent corrosion resistance.
- For dependable stem and body sealing 30SC, 43SC and 30VM valves are furnished with PTFE encapsulated packing; the 40VM and 60VM valves feature nylon/leather packing below threads.
- Stem sleeve and packing gland materials have been selected to achieve extended thread cycle life and reduced handle torque.
- Choice of Vee or Regulating stem tips.

Series 100VM: Pressures to 100,000 psi (6895 bar) features:

- Cold-worked type 316 or 15-5PH stainless steel body with aluminum bronze packing gland and non-rotating stem.
- Nylon and leather packing below stem threads.

Series 150V: Pressures to 150,000 psi (10342 bar) features:

- Cylindrical body of high strength 15-5PH stainless steel with stainless steel packing gland. Tool steel nonrotating stem with replaceable seat of nickel maraging steel. Stem must be actuated with torque wrench (refer to Tools, Installation, Operation and Maintenance section).
- Wedge-type PTFE and leather packing below stem threads with beryllium-copper Autoclave Anti-Extrusion Back up Rings.
- Vee stem tip only

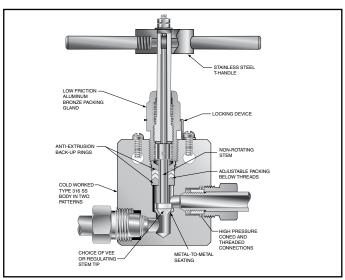

Parker Autoclave Engineers valves are complemented by a complete line of high pressure fittings and tubing. The high pressure series uses Parker Autoclave Engineers' coned-and-threaded connections for dependable performance in gas or liquid service.

Pressures to 43,000 psi (2965 bar)

Tube Outside Diameter Size Inches	Connection Type	Orifice Size Inches (mm)	Rated C _v *	Pressure Rating psi (bar) @ Room Temperature**
Series 30SC 1 Series 43SC	F1000C43	.438 (11.12)	2.6	30,000 (2068)
1	F1000C43	.438 (11.12)	2.6	43,000 (2965)

Notes:

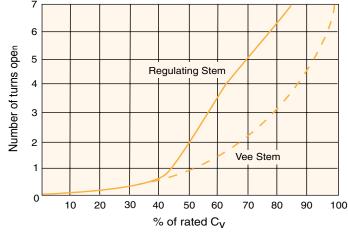

- * C_V values shown are for 2-way straight valve pattern. For 2-way angle patterns, increase C_V value 50%.
- ** For complete temperature ratings see pressure/temperature rating guide in Technical Information section.

To ensure proper fit use Autoclave tubing

Ordering Procedure

For complete information on available stem types, optional connections and additional valve options, see Needle Valve Options section or contact your Sales Representative. The 30SC Series valves are furnished complete with connection components, unless otherwise specified.

Typical catalog number: 30SC16071 30SC 16 XX 07 **Outside Diameter** Stem/Seat Valve **Body** Options Series **Tube Size** Type Pattern For extreme 1 - two-way straight 30SC 16-1" 07 - non-rotating temperature and Vee stem (on-off service) 43SC 2 - two-way angle other options. 08 - non-rotating see Valve Options. regulating stem (tapered tip for regulating and shutoff) 87 - Vee stem with replaceable 88 - Regulating stem with replaceable seat

Extreme Temperatures

Standard Parker Autoclave Engineers valves with PTFE packing may be operated from 0°F (-17.8°C) to 450°F (232°C). High temperature packing is available for service from -423°F (-252°C) to 1200°F (649°C) by adding the following suffixes to catalog order number.

- TG standard valve with PTFE glass packing to 600°F (316°C).
- GY standard valve with graphite braided yarn packing to 800°F (427°C). 8,000 psi (569 bar) max.
- HT extended stuffing box valve with graphite braided yarn packing to 1200°F (649°C).
- **B** standard valve with cryogenic trim material and PTFE packing to -100°F (-73°C).
- LT extended stuffing box valve with PTFE packing & Cryogenic trim materials to -423°F (-252°C).
- K anti-vibration collet and gland assembly.

Valve Maintenance

Repair Kits: add "R" to the front of valve catalog

number for proper repair kit. (Example: **R30SC16071**)

Valve Bodies: Valve bodies are available. Order using the eight (8)

digit part number found in the valve drawing or contact your Sales Representative for information.

Consult your Parker Autoclave Engineers representative for pricing on repair kits and valve bodies. Refer to the Tools, Installation, Operation and Maintenance section for proper maintenance procedures.

Notes:

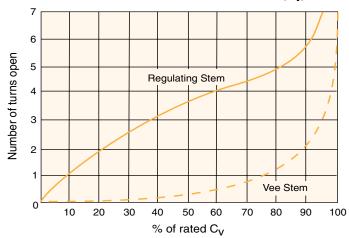

- * C_V values shown are for 2-way straight valve pattern. For 2-way angle patterns, increase C_V value 50%.
- ** For complete temperature ratings see pressure/temperature rating guide in Technical Information section.

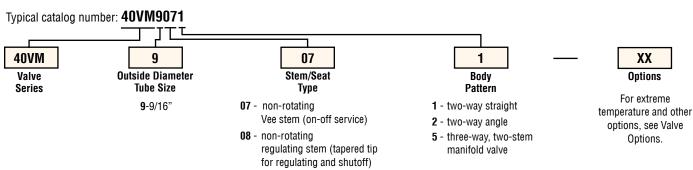

To ensure proper fit use Autoclave tubing

Ordering Procedure

For complete information on available stem types, optional connections and additional valve options, see Needle Valve Options Section or contact your Sales Representative. The 40VM Series valves are furnished complete with connection components, unless otherwise specified.

Extreme Temperatures

Standard Parker Autoclave Engineers valves with PTFE packing may be operated from 0°F (-17.8°C) to 450°F (232°C). High temperature packing is available for service from -423°F (-252°C) to 1200°F (649°C) by adding the following suffixes to catalog order number.

TG - standard valve with PTFE glass packing to 600°F (316°C). See note below.

GY - standard valve with graphite braided yarn packing to 800°F (427°C).

HT - extended stuffing box valve with graphite braided yarn packing to 1200°F (649°C).

B - standard valve with cryogenic trim material and PTFE packing to -100°F (-73°C).

LT - extended stuffing box valve with PTFE packing & Cryogenic trim materials to -423°F (-252°C).

K - anti-vibration collet and gland assembly.

Note: 40VM and 60VM valves supplied with Peak/PTFE Glass/Peek

Valve Maintenance

Repair Kits: add "R" to the front of valve catalog

number for proper repair kit. (Example: **R40VM9071**)

Valve Bodies: Valve bodies are available. Order using the eight (8)

digit part number found in the valve drawing or contact your Sales Representative for information.

Consult your Parker Autoclave Engineers representative for pricing on repair kits and valve bodies. Refer to the Tools, Installation, Operation and Maintenance section for proper maintenance procedures.

Needle Valves - 100VM & 150V Series

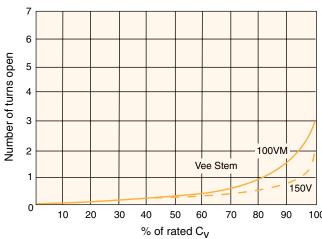

Pressures to 150,000 psi (10350 bar)

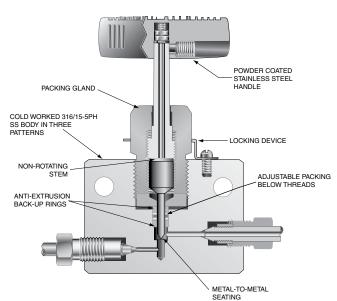

Tube Outside Diameter Size Inches	Connection Type	Orifice Size Inches (mm)	Rated C _v *	Pressure Rating psi (bar) @ Room Temperature**
Series 100VM 1/4, 5/16, 3/8	F312C150	0.062 (1.57)	.09	100,000 (6895)
Series 150V 5/16	F312C150	0.062 (1.57)	.06	150,000 (10342)

Notes

- * C_V values shown are for 2-way straight valve pattern. For 2-way angle patterns, increase C_V value 50%.
- ** For complete temperature ratings see pressure/temperature rating guide in Technical Information section.

Generalized Flow Coefficient Curves (C_V)

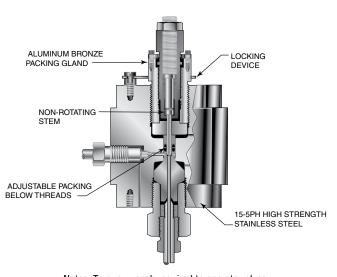

100VM Series

Notes: Torque wrench required to operate valves.

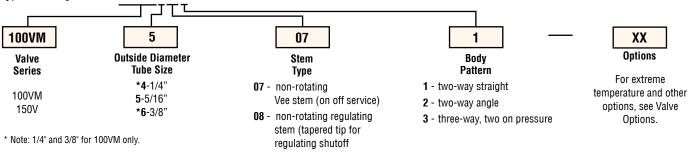

150V Series

To ensure proper fit use Autoclave tubing

Ordering Procedure

For complete information on available stem types, optional connections and additional valve options, see Needle Valve Options section or contact your Sales Representative. The 100V Series valves are furnished complete with connection components, unless otherwise specified.

Typical catalog number: 100VM5071

Valve Options

Extreme Temperatures

Standard Parker Autoclave Engineers valves with PTFE packing may be operated to 450°F (232°C), and to 230°F (110°C) with nylon-leather packing.

K - anti-vibration collet and gland assembly.

For other packing options consult the factory.

Valve Maintenance

Repair Kits: add "R" to the front of valve catalog

number for proper repair kit. (Example: **R100VM15071**)

Valve Bodies: Valve bodies are available. Order using the eight (8)

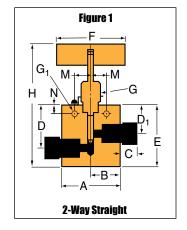

digit part number found in the valve drawing or contact your Sales Representative for information.

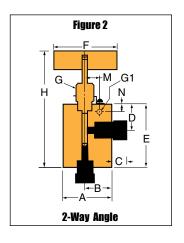

Consult your Parker Autoclave Engineers representative for pricing on repair kits and valve bodies. Refer to the Tools, Installation, Operation and Maintenance section for proper maintenance procedures.

G - Packing gland mounting hole drill size G_1 - Bracket mounting hole size Panel mounting drill size: 0.22" all valves. See mounting note below for 150V series.

† (2) 1/4"-20 mounting holes 180° apart and (1) locking device screw 90° apart

^{*} H Dimension is with stem in closed position. All dimensions for reference only and subject to change.

WARNING

FAILURE, IMPROPER SELECTION OR IMPROPER USE OF THE PRODUCTS AND/OR SYSTEMS DESCRIBED HEREIN OR RELATED ITEMS CAN CAUSE DEATH, PERSONAL INJURY AND PROPERTY DAMAGE.

This document and other information from Parker Hannifin Corporation, its subsidiaries and authorized distributors provide product and/or system options for further investigation by users having technical expertise. It is important that you analyze all aspects of your application and review the information concerning the product or system in the current product catalog. Due to the variety of operating conditions and applications for these products or systems, the user, through its own analysis and testing, is solely responsible for making the final selection of the products and systems and assuring that all performance, safety and warning requirements of the application are met. The products described herein, including without limitation, product features, specifications, designs, availability and pricing, are subject to change by Parker Hannifin Corporation and its subsidiaries at any time without notice.

Offer of Sale

The items described in this document are available for sale by Parker Hannifin Corporation, its subsidiaries or its authorized distributors. Any sale contract entered by Parker will be governed by the provisions stated in Parker's standard terms and conditions of sale (copy available upon request).
